ROSA WET-S5 DON Quantitative Test

for Feed and Grain

Product Overview

Simple Procedure

The **ROSA® WET®-S5 DON Quantitative Test (DONQ-WETS5)** delivers rapid and accurate results using ROSA (Rapid One Step Assay) lateral flow technology. Water Extraction Technology uses and extraction powder and water (e.g. bottled) to quickly and safely extract DON (vomitoxin) from the sample.

Benefits of DONQ-WETS5 Test Include:

- Range: 0 to 6000 ppb
- Results in 5 minutes
- Negative samples may be disposed as normal waste

Run on the Charm EZ-M System:

- High volume output with batching using multiple quad incubators
- Standard curve built into reader reducing testing cost by eliminating end-user calibration
- Printable or downloadable results to any computer or LIMS system

than 5 seconds!

For batch processing, incubate multiple strips simultaneously, then read results in the Charm EZ-M system.

minutes

Charm Validated Commodities ^A				
Barley	Corn	Wheat		

^ACorn and wheat have been validated with naturally incurred reference materials, barley has been evaluated with fortified samples.
