

Charm PocketSwab® Extenders

More Charm customers are incorporating PocketSwab Extenders to monitor hard-to-reach and inaccessible areas in their Sanitation Standard Operating Procedures (SSOPs).

Swab Sites Reachable with PocketSwab Extenders include:

- Tank and silo interiors
- Undersides of conveyor belts, rollers, packaging equipment, pallet trucks, etc.
- CIP lines
- Hoppers
- Guard covers
- Overhead piping (for condensate)
- Trunk lines
- Walls, doors, ceilings, windows
- Beams
- Light fixtures
- Vents
- Floor drains
- HVAC systems
- Filtration systems
- And more....

Charm® PocketSwab Extenders can be adjusted for different angles and are available in 3 and 16 foot (0.9 m and 4.9 m) lengths.

The 16-foot extender has several telescopic length options to choose from: 2.25 foot (0.69 m), and extends in seven 2 foot (0.6 m) increments.

Users simply lock the relevant Charm ATP swab (PocketSwab Plus, AllerGiene®, WaterGiene and FieldSwab) into the extender and adjust the angle to reach their target location.

To order, call Charm Customer Service at: 1-800-343-2170 Or e-mail: sodomestic@charm.com

“ The Charm PocketSwab Extender is working well for us. We are now able to reach difficult to clean areas of the tanks with the PocketSwab. ”
QA Manager, Milk Plant in Southwest
