

Field Incubator

Charm Field Incubator for Portable Testing

The **Charm Field Incubator** is a portable incubator, making testing with Charm EZ Compatible[®] Strips fast and easy.

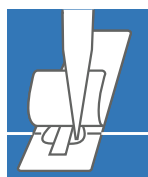

Equipment Overview

The Charm[®] Field Incubator allows for easy compact incubation for all ROSA[®] (Rapid One Step Assay) tests. Powered by a rechargeable battery, the portable Field Incubator has software selection capabilities for temperature and incubation time. This self-contained unit can be operated on a truck, on the farm, or in the field.

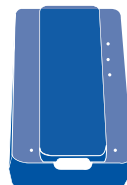

Features & Benefits

- ✓ Battery Operated – Lithium ion battery with 10-24 hour runtime
- ✓ Portable – Hand-held unit for use in lab or vehicle
- ✓ Rechargeable – Unit can be charged through wall adaptor
- ✓ Indicator Lights – Green and red indicators for instant visual of time and temperature
- ✓ Versatile – Can be used to run any Charm ROSA test
- ✓ Adjustable – Easy temperature and calibration adjustment
