

## ROSA WET-S5 DON Quantitative Test for Feed and Grain

### Product Overview

The ROSA® WET®-S5 DON Quantitative Test (DONQ-WETS5) delivers rapid and accurate results using ROSA (Rapid One Step Assay) lateral flow technology. Water Extraction Technology uses and extraction powder and water (e.g. bottled) to quickly and safely extract DON (vomitoxin) from the sample.

### Benefits of DON-WETS5 Test Include:

- Range: 0.5 to 5.4 ppm, 4 to 30 ppm
- Results in 5 minutes
- Negative samples may be disposed as normal waste

### Run on the Charm EZ-M System:

- High volume output with batching using multiple quad incubators
- Standard curve built into reader reducing testing cost by eliminating end-user calibration
- Printable or downloadable results to any computer or LIMS system

Charm ROSA Strip

### Simple Procedure with the Charm EZ-M System

1 Add Sample

2 Incubate

3 Read Results in Less Than 5 Seconds

For Batch Processing

Incubate multiple strips simultaneously, then read results in the Charm EZ-M system.

## Commodities

Charm Validated Commodities <sup>A</sup>				
Barley	Corn	Wheat		

<sup>A</sup>Corn and wheat have been validated with naturally incurred reference materials, barley has been evaluated with fortified samples.

## Ordering Information

Order Codes	Each Kit Includes
LF-DONQ-WETS5-40K	Test Strips, Positive Control, Dilution Buffer
LF-DONQ-WETS5-100K	Test Strips, Positive Control, Dilution Buffer

See Operator's Manual for additional kits and order codes.
